Jim Groshans will put his 30+ years of experience to work as he guides students through the complex world of stain removal. Through his leadership, students will learn about basic drycleaning chemistry, surfactants, tips and tools of the trade, and even the use of some bleaches.

Whether you are new to the spotting board or a seasoned professional looking to hone your skills -- this program is a great opportunity to learn new effective techniques to remove even the most stubborn stains.

- * Tools of the Trade
- * Proper Technique
- * Chemistry & Reactants
- * Bleaching
- * And much, much more!
